Foil Imprint and Embossed Labels

Foil Imprint Labels

The most elegant, top-of-the-line foil labels available are produced by transferring metallic foil onto the label. White and yellow foil imprint is an inexpensive alternative to screen printing. You can print white or yellow foil on Clear Polypropylene for an opaque imprint. Ordinarily labels with foil must be ordered several weeks in advance, but our foil labels are produced quickly.

Foil/Ink Combination Labels

Whether your design is in full process color (see page 21 for pricing) or traditional spot color, combination printed labels are the best way to add shelf appeal to your most complex label design. Adding the distinctive look of foil to your label is sure to enhance the visual impact of your product.

Embossed Labels

Raise your printing to the next level with embossing. Whether you choose blind embossing or embossed foil labels, this special effect will give your product or promotion the upscale look it deserves.

Helpful Information

- * An asterisk next to the size in the price charts indicates that size is available in both rewind directions. See page 51 for the rewind direction chart.
- ▶ The unwind direction of the label or roll is indicated by an arrow. If no arrow is present, this indicates that the label or roll can be set up to unwind in either direction.

Static Cling Labels:

Please specify static on face or back of label when ordering static labels. Face static is applied to the inside of windows, back static is applied to the outside of windows. Static Cling Labels are not recommended for outdoor use. At your request, we will print a rectangular block of white on clear stock at no extra charge.

Foil Imprint and Embossed Labels:

Foil imprint can be used on clear stocks for greater opacity than inks, especially white and yellow foil. Orange, white and yellow foils have a flat finish. Holographic and Security Foils are also available, see sales associate for availability. Screens and small type do not reproduce well on foil or foil/ink combination labels. Embossed labels cannot be singled. Minimum 10 pt. type for foil copy.

Process Color Labels:

All process color labels are laminated at no charge. Please specify face or back adhesive for Clear Poly or Static Cling. White Gloss, White Gloss Ultra Removable and Clear Poly are not available for bumper stickers. Quantities of 100 and 250 may have specific finishing requirements. Process Color Labels are available in sizes up to 11" x 24".
